

Hang Jiang

✉ jianghang@u.nus.edu 🏠 hangjiang.blog

Academic Appointments

The Hong Kong University of Science and Technology (Guangzhou)

Assistant Professor, Financial Technology Thrust, Society Hub

June 2026–Present

Education

National University of Singapore, School of Computing

Ph.D., Information Systems

2021–2026

Thesis: *Revisiting the Principal–Agent Problem with Moral Hazard: Theory and Applications*

Southern University of Science and Technology, Department of Mathematics

M.S., Probability and Mathematical Statistics

2017–2019

University of Science and Technology of China, Special Class for the Gifted Young 🔗

B.S., Statistics

2012–2016

Research Interests

Principal–Agent Problems; AI Agent Incentives; Blockchain and Decentralized Finance

Working Papers

Hang Jiang, Chen Jin, and Luyi Yang (2024). *Revisiting the First-Order Approach to Principal-Agent Problems*. 🔗

- **ORSS Best Student Paper Award** [*certificate* 🔗]
- Minor revision at *Management Science*
- In *Proceedings of the 25th ACM Conference on Economics and Computation (EC'24)* [*extended abstract* 🔗]
 - Presented at the 25th ACM Conference on Economics and Computation (EC'24) [*on YouTube* 🔗]
 - Presented at the 7th World Congress of the Game Theory Society (GAMES 2024) 🔗

Hang Jiang, Luyi Yang, and Chen Jin (2025). *Managing Sales Agents and Product Returns While Guarding Against Fake Orders*. 🔗

- Major revision at *Information Systems Research*

Hang Jiang, Jussi Keppo (2025). *The Human Roadblock to AI*. (available upon request)

- In preparation for submission to *Management Science*

Hang Jiang (2025). *An Implementation Relaxation Approach to Principal-Agent Problems*. 🔗

- In preparation for submission to *Journal of Economic Theory*

Hang Jiang, Jussi Keppo, Kimion Drakopoulos (2025). *Data Competition under the AI Flywheel Effect*.

- Manuscript in preparation

Hang Jiang (2026). *Decentralization, Ex-post Safety, and Sybil-Proofness*.

- Manuscript in preparation

Honors and Awards

Research Excellence Postdoctoral Fellowship, University of Toronto, 2026 (declined)

ORSS Best Student Paper Award (Theory Track, First Place), Singapore 2025 🔗 [*Awarding Institution* 🔗]

Finalist, Next-Gen Scholar's Symposium, Singapore 2025 [*Finalist list* 🔗]

Research Achievement Award, NUS School of Computing 2024 🔗

Student Travel Grant, ACM EC Conference 2024

Research Incentive Award, NUS School of Computing 2023–2025

NUS Research Scholarship, NUS 2021–2025

Graduate Scholarship, SUSTech, 2017–2019

Outstanding Undergraduate Scholarship, USTC, 2012

Conference Presentations

2025 INFORMS Annual Meeting, Job Market Showcase Track (Oct 2025, Atlanta)

Next-Gen Scholar's Symposium, Analytics for X Conference 2025 (Sep 2025, NUS)

2025 INFORMS International Conference (Jul 2025, Singapore)

Information Systems Summer Research Workshop 2025 (Jul 2025, Singapore)

The 7th World Congress of the Game Theory Society (Aug 2024, Peking University)

The 25th ACM Conference on Economics and Computation (Jul 2024, Yale University)

Professional Service

Journal Reviewer: *Management Science*, *MSOM*.

Memberships

Game Theory Society; ACM Special Interest Groups; Operational Research Society of Singapore (ORSS); INFORMS

Programming Languages & Tools

Python, R, Stata, Mathematica, SQL, Git, LaTeX

Teaching Experience

Teaching Assistant, School of Computing, NUS

- BT4013 Analytics for Capital Market Trading and Investment (2023)
- CS4246/CS5446 AI Planning and Decision Making (2023)
- IS4234 Governance, Regulation, and Compliance Technology (2022)
- FT5003 Blockchain Innovations (2022)
- IS4302 Blockchain and Distributed Ledger Technologies (2022)

Teaching Assistant, Department of Mathematics, SUSTech

- MA117 Calculus I (2018)
- MA212 Probability and Statistics (2017)

Teaching Assistant, USTC

- Calculus I (2015)

Practitioner Articles

Hang Jiang, *Toward a General Model for Proposer Selection Mechanism Design*, Ethereum Research, Feb 2025. [🔗](#)

Hang Jiang, *A Dynamic Model for Token-gated Clubs*, SSRN Working Paper, Aug 2022. [🔗](#)

Hang Jiang, *How Much Liquidity is Needed to Solve Sandwich Attacks*, Global Coin Research, Mar 2022. [🔗](#)

Hang Jiang, *What Does DAO 2.0 Tokenomics Look Like*, Global Coin Research, Dec 2021. [🔗](#)

Industry Experience

Head of Research, Global Coin Research [🔗](#) 2021–2022

- Selected articles and talks [🔗](#)

Research Assistant, China Merchants Securities (招商证券) 2017–2018

- Project: *Blockchain-Based OTC Asset Transfer: Mechanisms and Regulation*.
 - Key Research Project of the Securities Association of China (中国证券业协会重点研究课题), 2017 [*certificate* [🔗](#)].
